NEW ASHA 'MASTER CONDITION SHEET'

Members:

The following document is the long awaited new "Master Condition Sheet" for use at the Century Racetracks in Alberta. The Master consists of fifty two conditions, an increase from the forty two on the current Master which has been in use for the past several years. As the Race Secretary generally only uses twelve to fifteen conditions to put together a ten race card, all of the fifty two conditions will not be used regularly, and in fact, dependant on the horse population, some may not be used at all for some time into the future. However, they are there and available should the size and distribution of our horse population change.

The increase in the number of conditions allows for the addition of more "recent performance" classes, the simplification of the claiming ladder, and a few other minor condition changes. Specific areas of change are as follows:

1. The minimum claiming price has been increased to \$4000 from the current \$3000 to reflect rising external pricing for horses.
2. A reduction in the number of conditioned classes for horses 'five years and younger' from fourteen to ten.
3. An increase in the number of 'straight claiming' classes
4. The addition of ten "Recent Performance" conditions based on earnings in the last five starts.
5. A change from the current 'Alberta advantage' conditions from "Alberta Sired" to "Alberta Foaled" which should provide greater advantage to Alberta owners.

In implementing these new conditions, the intent is to produce race cards that are forty percent recent performance based races, thirty percent claiming, and thirty percent other –ie maidens, five years and younger , opens, etc. This target may not always be possible due to the available horse populations, but it will be the goal where at all possible.

It is recognised that the change over to the new condition sheet will cause some turmoil, and most probably some 'winners and losers' for the first couple of starts, but hopefully the changes will provide more options to Trainers and will prevent the "conditioning out" of horses which currently exists. Please assist in working with the Race Secretary to make this transition work, remembering that if something truly does not work we can make whatever changes are necessary to make it work.

Thank you for your patience,

Don McNeil

55 **RECOMMEND USE OF TRACKMASTER SERIES** – (RECENT SPEED PERFORMANCE) THIS SERIES COULD BE USED IN LIEU OF CONDITIONS MARKED\* ABOVE. USE WOULD BE FOUR TO FIVE RACES PER DAY. (PERFORMANCE BRACKETING AT THE DISCRETION OF THE RACE SECRETARY). USE OF THIS TOOL IN THE PREPARATION OF CONDITION SHEETS IS DEPENDANT ON STANDARD BRED CANADA REACHING AGREEMENT WITH TRACKIT REGARDING THE USE OF STANDARD BRED CANADA'S DATABASE. HOPEFULLY THIS AGREEMENT WILL BE IN PLACE BY MID SUMMER AND PERHAPS THIS TOOL CAN THEN BE APPLIED.
